This material is not as thick as regular canvas and uses finer yarns to give it a more elegant appearance. It has a tighter and stiffer weave over similar hemp linen fabrics.</i></p>	007
	<p>100% hemp, Canvas</p> <p>Weight: 395 g Width: 145 cm Color: Natural</p>	<p><i>Heavier and thicker canvas. The yarns used are bigger, adding more texture to the weave. It works very well for bags, backpacks, wallets and home furnishings. This canvas is very strong and durable.</i></p>	008
	<p>100% hemp, Twill</p> <p>Weight: 340 g Width: 145 cm Color: Natural</p>	<p><i>Versatile fabric, creating durable products which outlast all others. Excellent for jeans, jackets, shorts, as well as home furnishings like upholstery. This fabric has also been successfully used in accessories such as caps, bags, and wallets.</i></p>	009
	<p>100% hemp, Canvas</p> <p>Weight: 310 g Width: 152 cm Color: Natural Taupe</p>	<p><i>Tightly woven and best suited for slip covers, upholstery, hats, and bags. The yarn used is a natural taupe color which has not been bleached. The tight weave creates a barrier when held up to the light. Also popular for home furnishings and has been used to make jackets, vests, durable shorts and pants.</i></p>	010
	<p>100% hemp, Canvas</p> <p>Weight: 310 g Width: 147 cm Color: Natural</p>	<p><i>Tightly woven and best suited for slip covers, upholstery, hats, and bags. The tight weave creates a barrier when held up to the light. It is very popular for home furnishings and has been used to make jackets, vests, durable shorts and pants.</i></p>	011

product image	details	description	reference
	<p>100% hemp, Herringbone</p> <p>Weight: 300 g Width: 145 cm Color: natural</p>	<p><i>This is a hemp herringbone fabric. The hemp gives it the strength and the weave gives it the character. It is perfect for many uses such as wallets, bags, backpacks, home furnishings, and even good for apparel as vests or jackets.</i></p>	012
	<p>100% hemp, Sava</p> <p>Weight: 295 g Width: 150 cm Color: Natural Density: 41 x 30</p>	<p><i>This weave combines the strength and durability of hemp with a unique pattern and style. Excellent for home furnishing such as wall covers, drapery, slip covers, window shades, and upholstery.</i></p>	013
	<p>100% hemp, Linen</p> <p>Weight: 285 g Width: 152 cm Color: Natural Taupe</p>	<p><i>This unique hemp linen has the natural taupe color usually seen on European hemp, but with fine yarn and weave seen only in hemp from China. Elegant and versatile fabric, used in both home furnishing and apparel. Good for both men's and women's clothing, especially shirts, pants, dresses, and active lifestyle. Softens up nicely with washing.</i></p>	014
	<p>100% hemp, Burlap</p> <p>Weight: 215 g Width: 150 cm Color: Natural</p>	<p><i>Open weave fabric for home furnishings. perfect choice for a worn, rustic look. Resistant to both mold and ultraviolet light. While real burlap made from jute is meant to disintegrate, burlap made from hemp will last a long time.</i></p> <p>Apt for some applications in construction.</p>	015
	<p>100% hemp, Summercloth</p> <p>Weight: 200 g Width: 145 cm Color: Natural</p>	<p><i>Excellent for apparel, it can be used for both top and bottom weights. It has an open weave which lets in the light, but will close with washing. It softens up extremely well with use. The thick yarns add a bit of texture to the clothing. This material can also be used in curtains and other home furnishing.</i></p>	016
	<p>100% hemp, Jersey</p> <p>Weight: 195 g Width: 150 cm Color: Natural</p>	<p><i>This fabric is the first time hemp yarns have been knitted successfully into a jersey. It represents a breakthrough in hemp technology and has a soft, silky smooth hand, cool to the touch, mildly clingy and a little transparent. Apt for creation of novel, unique garments from one of kind T-shirts to timeless fashions.</i></p>	017

product image	details	description	reference
	<p>100% hemp, fine Linen</p> <p>Weight: 155 g Width: 145 cm Color: Natural</p>	<p><i>This midweight linen is used extensively in both home furnishing and apparel. Its elegant texture and durable quality allow it to perform perfectly in the home. It is also good for both men's and women's clothing, especially shirts, pants, dresses, and active lifestyle. This material softens up nicely with washing.</i></p>	018
	<p>100% hemp, fine Linen</p> <p>Weight: 150 g Width: 145 cm Color: Natural</p>	<p><i>This is one of the finest hemp linens ever made, excellent for apparel, especially tops and dresses. This fabric is good for both men's and women's clothing. It won't stretch out of shape and softens up nicely. This material can also be used for curtains, slip covers, and wall hangings.</i></p>	019
	<p>100% hemp, Jersey</p> <p>Weight: 125 g Width: 135 cm Color: Natural</p>	<p><i>This lighter weight jersey has a soft, silky smooth hand, cool to the touch, mildly clingy. The yarns are thinner so it is less transparent than the heavier jersey. Exceptional material to create novel, unique garments from one of kind T-shirts to timeless fashions.</i></p>	020
	<p>100% hemp, very fine Linen</p> <p>Weight: 105 g Width: 135 cm Color: Natural</p>	<p><i>The finest hemp ever made, it is excellent for apparel, especially tops and dresses. This fabric is good for both men's and women's clothing. It won't stretch out of shape and softens up nicely. This material can also be used for curtains, slip covers, and wall hangings.</i></p>	021

Other available fabrics:

- Mixed fabrics with organic cotton, silk or others.
- Recycled hemp: very low priced but with small percentages recycled synthetic fibers.
- Very few colored fabrics, mostly green, blue or black.
