

TECHNICAL DATA SHEET **TECHNIFEUTRE (HEMP FELT)**

Raw materials

Felt = hemp fiber 75%, recycled jute fiber 25%.
100% vegetable material. Free of synthetic fibers.

Packaging

Rolls of 1,00 m * 25 m (= 25 m²), 5 mm thickness
Bands of 10 cm x 5 m x 5 mm

Uses

- underneath **floating (wooden) floors**
- insulation **underneath floor slabs** (or upon old floors to isolate of new floorings)
- against **aerial noises and of impact** (acoustic rupture between hard and resonant materials)
- put upon wood board in ceilings, it allows its **ventilation**
- for **expansion joints**

Physical characteristics

Average density **750 g/ m²**
Average thickness **5 mm**
Color hemp (**beige - light brown**)
Elastic material (similar to a carpet)
